

Smart, comfortable
and safe boiler
for your home!

Nitron Plus

DD DemirDöküm

Smart, comfortable and safe boiler for your home!

Nitron Plus

3-Star Efficiency Class

3-star efficiency according to 92/42/EEC standards with high efficiency conditions in maximum and minimum operation.

Multifunctional LCD Screen

Instant capacity usage, ECO button, break down warning system, wall hung boiler capacity, and gas type can be monitored on LCD screen.

Standard Digital Program Timer

Programmability on every day of week at any time period with standard digital program timer

Self Adaptation System

Automatic fan speed adjustment according to hermetic chimney length and conditions and safe operation

Fan modulation

Fan speed is automatically adjusted according to the temperature requirement of wall hung boiler. This way, while high efficiency is provided in Nitron wall hung boilers, sound levels are considerably low.
