

**More Efficient  
than a boiler  
Nitron Condense**

# More Efficient than a boiler

## Nitron Condense

- The 4-star-rated Nitron Condense gas boiler offers 24 kw and 28 kw capacity options. It successfully combines an elegant design with space-saving compact dimensions.
- 24kW & 28 KW Combinations
- Energy efficiency of 103%
- Eco Comfort Mode
- Easy observation of water pressure with digital and analog manometer
- High comfort of domestic water with additional plate heat exchanger
- Smart heating system with inlet & outlet sensor connections
- Easy installation and maintenance with special interior design

MODEL	Nitron Condense 24kW	Nitron Condense 28kW
Technology	Condensing	Condensing
Efficiency	102,5 ««««	102,5 ««««
Heat Output Max. Kw	23	27
Heat Output Max. Kw (DHW)	23	27
DHW Heat Output l/min ΔT30°C	11.6	11.7
